

# Preventing Targeted Violence

# Prevention vs Prediction

## Risk Factors for Heart Attack:

- Family history
- Poor diet
- Smoking
- High cholesterol
- High blood pressure
- Stress
- Physical inactivity

\*To prevent acts of targeted violence, we look at risk factors and warning signs to develop a mitigation plan.

# Active Shooter

**IDENTIFY**

**ASSESS**

**MANAGE**

the kind  
that's  
able to  
t and  
ble to  
ct.”

# Types of Violence

A close-up photograph of a person's hand in a dark suit sleeve moving a light-colored chess piece on a wooden chessboard. The board has a black and white checkered pattern. In the background, a smartphone is visible on a white surface.

## **Affective:**

- Impromptu, impulsive and reactive
- Emotional, usually defensive in response to perceived imminent threat

## **Predatory:**

- Targeted, planned
- Often driven by grievance
- Offenders do NOT snap
- Not spontaneous, emotion-driven, reactive crimes
- Take time to **consider, plan, and prepare** their attack... giving bystanders opportunity to **observe and report** and allow threat assessment teams to engage in a management plan.

# Targeted Violence

A close-up photograph of a hand in a dark suit sleeve moving a light-colored chess piece on a wooden chessboard. The board has a black and white checkered pattern. Other pieces are visible on the board, and a smartphone is partially visible in the top right corner.

## WHY DOES THIS MATTER?

### OFFENDERS:

- **Consider, plan** and **prepare** in advance of attacks
- Engage in behaviors that **precede** and are **related** to their attacks
  
- **DETECTABLE BEHAVIORS = OPPORTUNITY FOR DISRUPTION**

# What's the "profile"?

No usual suspects  
No demographic profile  
No single behavior

- A “**perfect storm**” develops based upon a multitude of factors and conditions.
- Assessing and managing threats is not a “one size fits all” approach.

# Explaining Tragedy

## How do we explain the worst?

- ? Guns
- ? Mental Health
- ? Bullying

# Identification

## Assessment

## Management

# Sandy Hook Promise

# Identification

One of the most significant challenges for disruption and prevention

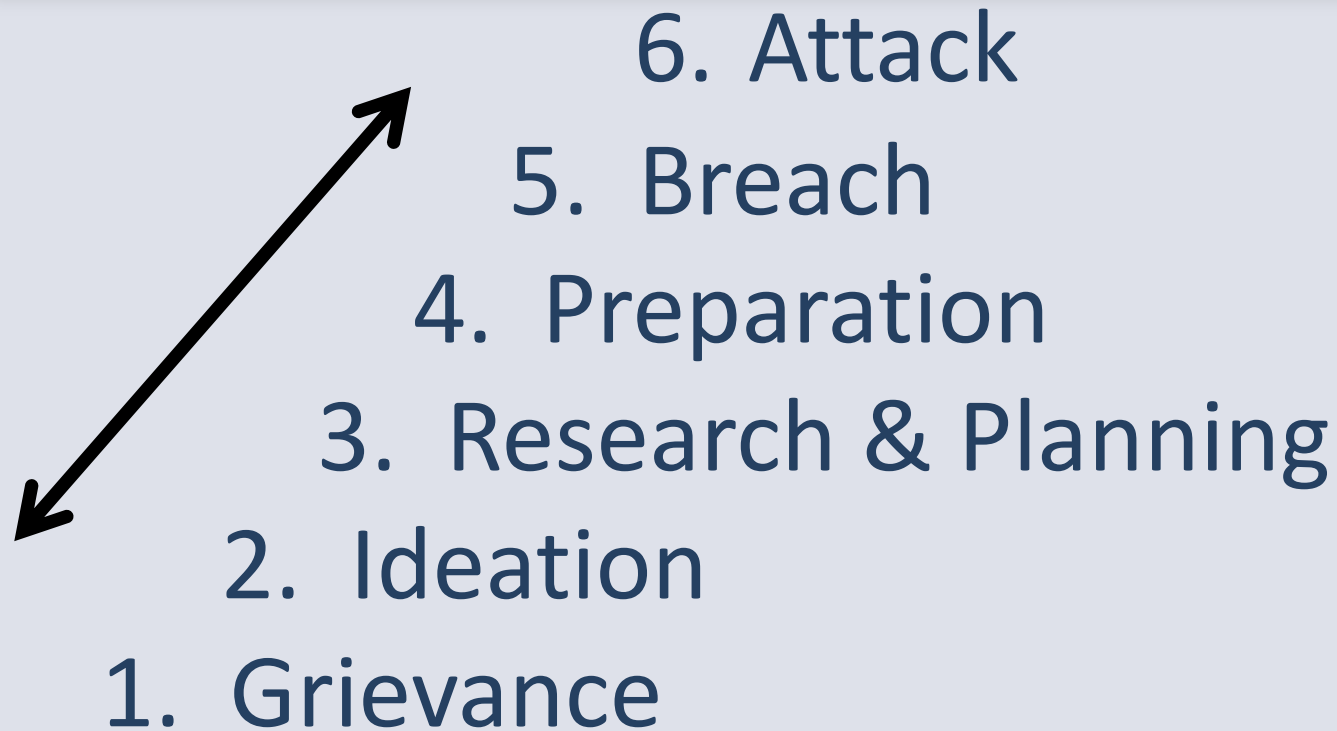

A two-fold process:

- **recognition** of concerning behaviors AND
- **reporting** to law enforcement

# Recognition

## PATHWAY TO VIOLENCE

From Fein and Vossekuil (1995, 1998); Calhoun and Weston, (2003)

# Grievance

# Brittle People

# Leakage

I kill for satisfaction.  
I kill him and her.  
I don't care.  
Their Blood will become wine.  
Flesh into delightful meat.  
Like the taste of a dog on a street.

Blood will pour from their tormented bodies.  
Cries of punishment not foolishment.  
Their Torso will break.  
They will scream for mercy.  
AND they will die!!!

This is no lie.  
For the scream and cry.

# Social Media

- Leakage
- Evidence of problematic interpersonal interactions
- Evidence of pathway behavior
- Announcing the attack
- Delivering legacy token

# Red Zone Behaviors

Change in Appearance

Cessation of Drugs and Alcohol

Legacy Token

Security Probing

Weapons Acquisition

Pre-Attack Staging

# Legacy Token

# Identification

# Stalking & Harassment

# Targeting

Target?

Object of the grievance?

Victim count?

Availability?

CONTEXT

# The Outsider

- Desirable
- Available
- Vulnerable
- Breaching/infiltration
- Pre-attack site surveillance

# Mental Illness

“The probability of violence for severe mental illness alone is approximately the same as for subjects with no severe mental illness...”

Elbogen, E. & Johnson, S. *The Intricate Link Between Violence and Mental Disorder*. Archives of Gen. Psychiatry, Vol. 66 (No. 2) Feb 2009

Identification

Assessment

Management

# Threat Assessment

## Definition:

Accurately and defensibly assess the threat posed by the subject of significant and imminent violence

## Accomplished by:

*Trained threat assessment professionals, teams, and/or units*

# Making v Posing

Goal of Assessment:

Is there evidence to suggest movement from

***THOUGHT*** *to* ***ACTION***

Waiting for a subject to make a threat is risky because many people who pose the most concern never make a direct threat.

# Assessments

If you have a case in which there is already an “assessment” consider who conducted them, for what purpose and with what information. Avoid competing assessments.

# Whole Picture

Totality of circumstance vs single points. Everyone has different aspects - work life, home life, school life, personality... the goal is to collect as much information as possible to understand the whole.

# Information Gathering

Police and Military  
Records

School and Work  
Records

Medical and Mental  
Health Records

Communications  
and Journals

Life and  
Relationships

Social Media

# Privacy Laws

Law enforcement exceptions often allow disclosure of protected info when necessary to prevent or lessen a serious and imminent threat to health or safety.

# Enhancers

## RISK FACTORS

Violence  
History

Physical and  
Mental Health

Weapons Access/  
Explosives

Problematic  
Behaviors

Social and  
Environmental

Healthy  
Environment

Support  
System

# Key Questions

- What contextual risk factors have we observed?
- What triggers could move someone along a pathway to violence?
- What factors keep or deter someone from committing a targeted attack?
- How can we maintain or improve the subject's situation?

# Levels of Concern

The “level of concern” reflects the dynamic nature of warning behaviors, changing circumstances and the effects of intervention.

Identification

Assessment

**Management**

# Caretaking

Threat management protects public safety via monitoring and interventions designed to improve a POC's well-being or even relieve their underlying grievance.

Once a POC is identified, there is a responsibility to ensure he doesn't slip through the cracks.

# Management Options

Passive

Active

**Direct Interview**

**Third Party Monitor**

**Watch and Wait**

**Take No Further Action**

**Confinement**

**Criminal Enforcement**

**Civil Actions**

**Administrative Actions**

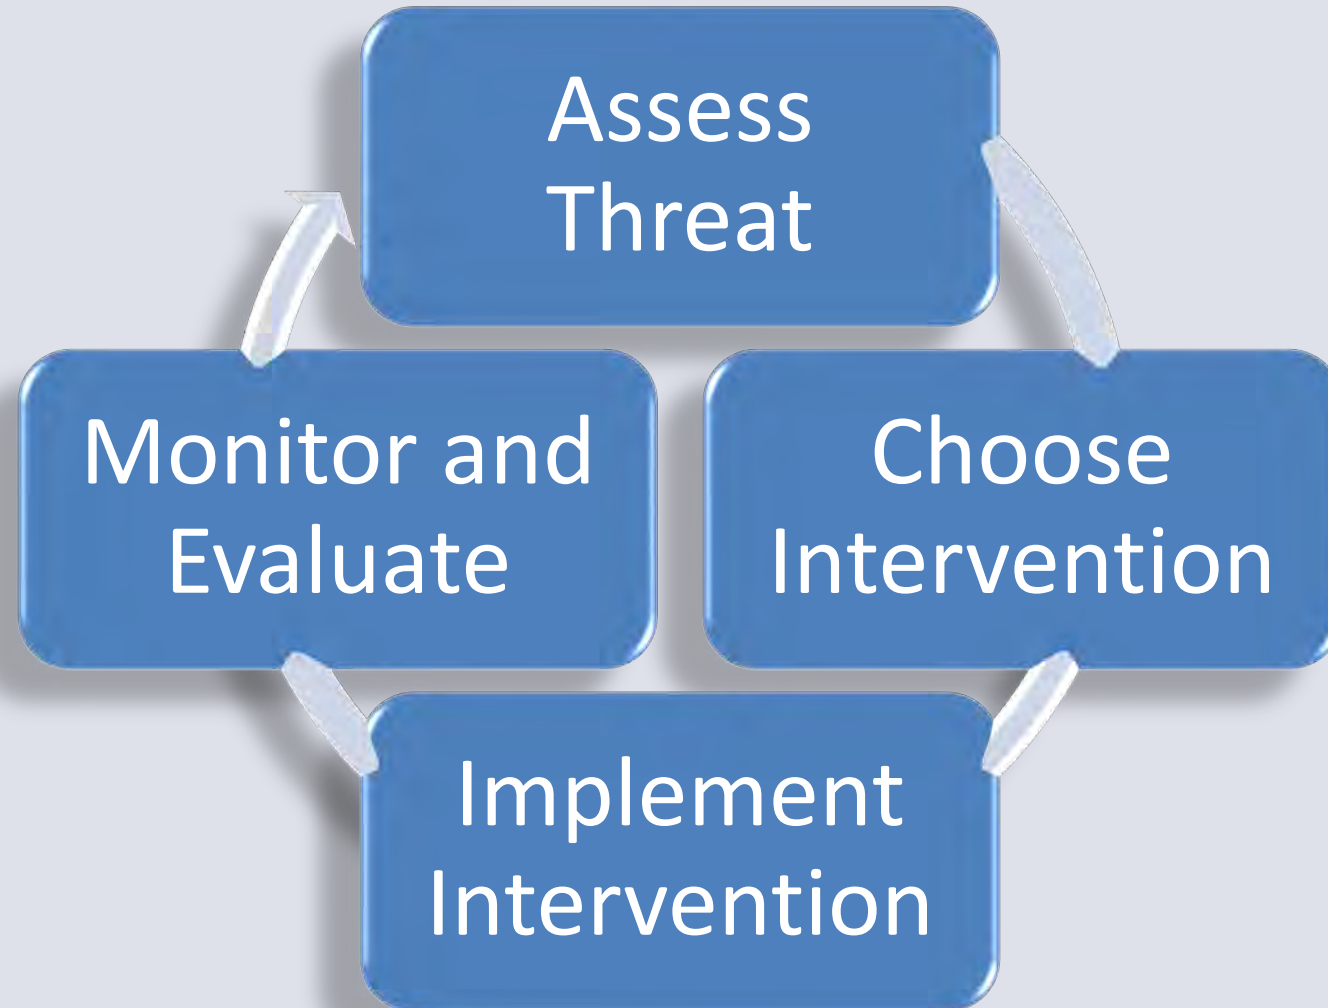

# Outside the Box

A TMT should think creatively when working to prevent a violent outcome. Consider how to resolve the POC's grievance.

Threat management is unique to the individual. Creative thinking comes into play when resources are limited.

# Management Cycle

AT THE TABLE

## SOUTHWEST TEXAS FUSION CENTER

# Behavioral Threat Assessment Group- B.T.A.G.

### Purpose:

Engage, as early as possible, in the assessment and management of POCs, to deter a path of violence toward others.

# 3 Tier Approach

P.S.T.A.G.- Monthly, Public Safety  
Threat Assessment Group

B.T.A.G. – Behavioral Threat  
Assessment Group

**T.A.C.T.- Threat  
Assessment Contact Team**

## SOUTHWEST TEXAS FUSION CENTER

# T.A.C.T.- Threat Assessment Contact Team

### Contact Team:

- SAPD or BCSO Field Supervisor
- SAPD MHU Officers
- SAPD MHU Detective
- SAPD MHU Clinician
- SAPD Fusion Operator Detective
- BCSO MHU Deputies as needed
- SAFD MIH Firefighters as needed
- PSTAG Member - Varies, as needed

IN THE FIELD

## SOUTHWEST TEXAS FUSION CENTER

### **T.A.C.T.- Threat Assessment Contact Team**

#### **Purpose:**

Make an initial contact of a person of concern to engage as early as possible in assessment and mitigation to deter a path of violence.

## SOUTHWEST TEXAS FUSION CENTER

# T.A.C.T.- Threat Assessment Contact Team

### Goals:

- Triage of behavioral characteristics
- Intel gathering of the situation and scenario
- Mental Health Assessment
- Weapon investigation, and/or discovery
- Criminal investigation upon elements of the offense
- Medical history or medical assessment
- Annotations to return to TTAG for Assessment and Management

# B.T.A.G.- Levels of Concern

Level of Concern: Low

Level of Concern: Moderate

Level of Concern: Elevated

Level of Concern: High

Level of Concern: Indications of  
Potential Imminence

# Management Matrix

## B.T.A.G.- Levels of Concern, Management Matrix

TAM – Level of Concern	Assessment Update		Assessment -		Assessment -		Assessment -
	Initial Entry	Duration	Month 3-6	Duration	Month 6 -12	Duration	Month 18
Low	Within 10-15 Days	3 Months	Within 30 Days	3 Months	Within 90 Days	12 Months	Consider Inactive LOC
Moderate	Within 6 -10 Days	3 Months	Consider Low LOC				
Elevated	Within 3-5 Days	1 Month	Consider Moderate LOC				
High	Daily until LOC reduced		TACT CALL OUT				
Indications of Imminence	TACT CALL OUT		Inactive LOC assessment - Sergeant approval required . 18 Months management- FBI best practice.
